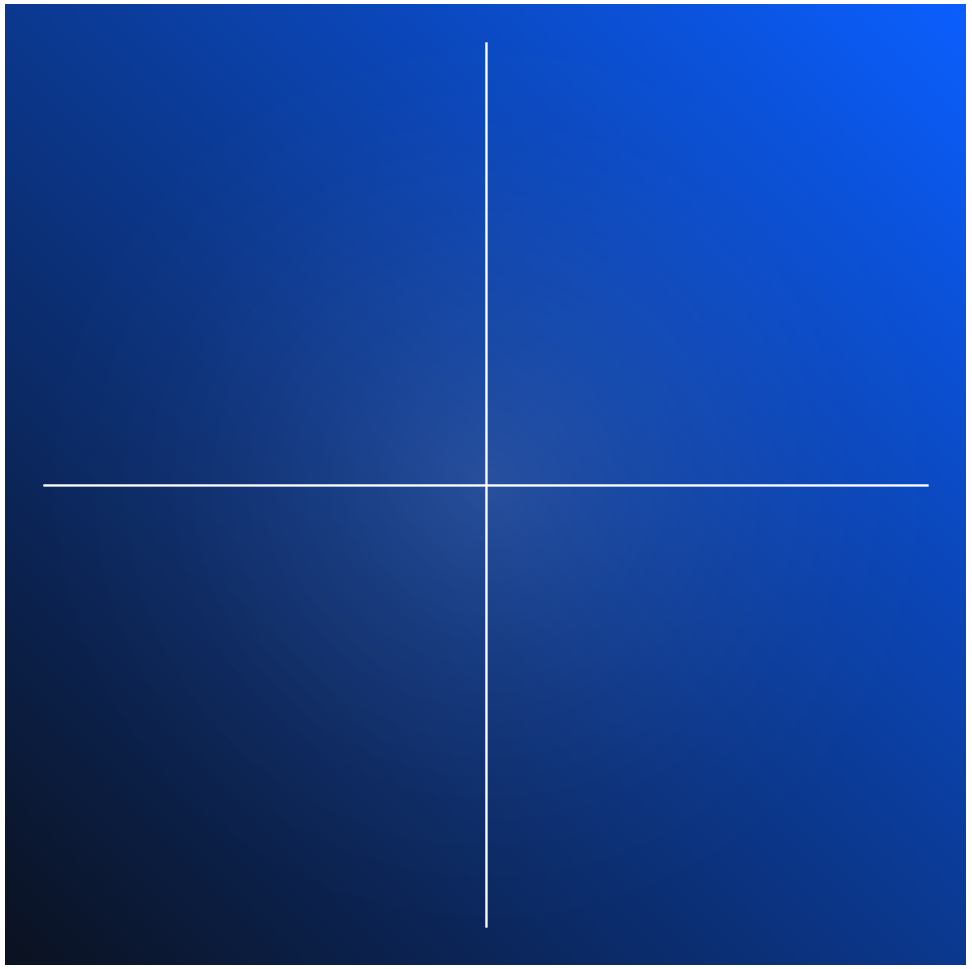
Proposal

A custom website for your business, built fast.

No template feel. Clean handover, fully owned by you.



Prepared for [Client Business Name]

By Harry Davies · Plynos · [Date]

01 What this is

A clean, custom website, built around what you actually do.

A custom-built website for [Client Business Name], designed around what the business actually does. Not a template. Not a starter theme dressed up. A site built from the ground up so it matches your brand and the way you sell.

It loads fast on a phone, reads well to a first-time visitor, and makes the next step (call, message, book) the obvious thing to do. Clean copy, clean code, full handover. You own it after launch. No retainer. No lock-in.

Custom

Built around your services, not a template.

Fast

Light pages, quick to load, easy on mobile.

Yours

Clean handover. No retainer, no lock-in.

02 What you get

What you get

The standard build, designed around [Client Business Name].

Homepage
A focused first page that explains what you do, fast.

About section
A short, credible introduction to the business.

Mobile-first design
Built for phones first, then scaled up. Most visitors arrive on mobile.

Fast-loading pages
Light code and optimised images so nothing drags.

One round of revisions
A pass of adjustments before launch so you sign off happy.

Services section
What you offer, written in plain language.

Contact section
Phone, email, address, plus a simple form that works.

Sensible SEO setup
Clean titles, descriptions, and structure so the site can be found.

Domain and hosting
Help choosing, connecting, and going live with your domain.

03 How it is built

How it is built

Six principles that shape every page from sketch to launch.

01

Simple structure

A clean layout that does not fight for attention. Information is easy to find.

02

Direct copy

Plain, confident language that explains what you do without filler.

03

Mobile-first

Designed for the phone first, then scaled up. That is how most visitors will see it.

04

Contact-led

Every page makes the next step (call, message, enquire) the obvious one.

05

Clean code

Light pages, modern stack, sensible structure. Fast to load, easy to maintain.

06

Built around you

Designed around your real services, your real customers, your real brand.

04 Investment

One clear price

Paid in two simple stages.

Total

€600

+ VAT if applicable

Includes design, development, setup, and launch support.

Payment schedule

Deposit to begin Paid before work starts.	€300
Final payment Paid before the site goes live.	€300
Total	€600 + VAT

05 Timeline

From kick-off to launch

Usually inside one working week, sometimes faster.

Day 0
Kick-off
Content and deposit received.

Day 2-4
Initial draft
First design draft delivered for review.

Day 4-6
Revisions
One to three days of adjustments.

Day 5-7
Launch
Site goes live. Handover complete.

Timing depends on how quickly business information, images, and feedback are provided.

06 What I need from you

What I need from you

A short list. The faster these arrive, the faster [Client Business Name] goes live.

Business name
The official name as it should appear on the site.

Main services
What you offer, in your own words.

Contact details
Phone, email, address, and any social profiles.

Photos and images
Anything you would like featured. Optional.

Logo
If you have one. We can work without it if not.

Short description
A few lines about who you are and what you do.

Preferred style
Optional. Any colours, fonts, or sites you like the feel of.

Domain access
If you already own a domain, the registrar or login.

No copy yet? Simple website copy can be drafted as part of the build.

07 Not included

What is not included

To keep the price clear, the items below sit outside the standard build. Any of them can be added on request, quoted separately.

- Paid advertising
- Ongoing edits after launch
- Complex booking systems
- Custom software development
- Legal policies, unless legal text is provided
- Advanced SEO campaigns
- Professional photography
- E-commerce functionality
- Monthly hosting or domain fees, unless agreed

Everything in this list can be added later. Prices for additional work are quoted separately.

08 Saying yes

From here to a live site

Five short steps. Two of them are mine.

1	**You confirm**	A quick yes by email or WhatsApp.
2	**Deposit invoice**	A €300 deposit invoice is sent over.
3	**You send your details**	Business info, images, any preferences.
4	**First draft**	Initial design draft within 2 to 4 business days.
5	**Revisions and launch**	Final adjustments, then the site goes live.

Once accepted, work can begin as soon as the deposit has cleared.

Ready to start

Get in touch.

If anything in this proposal needs to flex around [Client Business Name], just say. The shape of the work can move with what is actually useful.

Otherwise, a quick yes by email or WhatsApp is enough to begin.
