A proposal

A custom website for your business, built fast.

A clean, custom website,
built around what you **actually** do.

How it is built

Six principles that shape every page from sketch to launch.

Simple structure

A clean layout that does not fight forattention. Information is easy to find.

Direct copy

Plain, confident language that explains whatyou do without filler.

Mobile-first

Designed for the phone first, then scaledup. That is how most visitors will see it.

Contact-led

Every page makes the next step (call,message, enquire) the obvious one.

Clean code

Light pages, modern stack, sensiblestructure. Fast to load, easy to maintain.

Built around you

Designed around your real services, yourreal customers, your real brand.
